MURDER AND SUICIDE

Sensation In Exclusive Finishing School For Young Ladies.

A TRAGEDY NEAR BOSTON

Miss Elizabeth Hardee, a Pupil, Formerly of East Savannah, Ga., Supposed to Have Been Killed by Friend, Who Then Suicides.

Boston, March 12.—A murder and suicide at the Laurens school, an exclusive finishing school for young women at 107 Audubon road, is reported to the police.

Details are lacking, but it is understood that a pupil of the school named Miss Hardee, was shot and killed by a Miss Weed, a friend, who Tuesday night escaped from a sanitarium in Newton. Miss Weed then committed suicide.

The dead women are Miss Sarah Chamberlain Weed, of 112 West Willow Grove avenue, Chestnut Hill, Philadelphia, and Miss Elizabeth Baily Hardee, of 214 Gwinnett street, East Savannah, Ga.

Had Been Intimate Friends.

Each was about thirty-five years of age, and they had been intimate friends since their graduation from Wellesley college, Miss Hardee receiving her diploma in 1894, while Miss Weed received hers a year later. Miss Hardee was an instructor in mathematics at Wellesley in 1899 and 1900 and since that time had been a teacher in Vermont. Miss Weed had also been teaching in various sections of the country.

Last summer the two women decided to open a boarding school for girls on Audubon road, in the Fenway. On Oct. 1, the day upon which the Laurens school, as they called it, was opened, Miss Weed broke down as a result of overwork, and was taken to a sanitarium in West Newton, where she had since been under treatment for nervous prostration.

While at the sanitarium Miss Weed has been subject to severe attacks of melancholia.

Escaped from Sanitarium.

Tuesday night she escaped from the sanitarium and made her way to the Laurens school. Miss Hardee volunteered to care for her during the night and pending her return to the sanitarium.

Miss Tweed behaved in a peculiar manner, according to the teachers, wantering aimlessly about the school building and occasionally making some strange or incoherent remark.

At length Miss Hardee persuaded Miss Weed to retire and the demented woman followed her to her own chamber on the third floor.

When Mrs. Page, the matron of the school, went to Miss Hardee's room Wednesday morning to awaken her, she was shocked to find both women dead in bed. Miss Hardee had been shot through the base of the brain, while there was a bullet wound in Miss Weed's right temple. A revolver, with two chambers empty, was lying on Miss Weed's breast.

Doctor Gives Opinion.

Medical Examiner Stedman, after viewing the bodies, declared that Miss Weed had committed suicide after having killed Miss Hardee.

The pupils at the school, about forty in number, are the daughters of wealthy parents from all sections of the country.

Averbuch's Sister Makes Protest.

Chicago, March 12.—Olga Averbuch, sister of the man who was killed by Chief of Police Shippy, Wednesday entered a protest against anarchists taking part in the ceremonies incidental to the removal of her brother's body from the potter's field to one of the Jewish cemeteries in the western part of the city.

Schmitz Gives Big Bond.

San Francisco, March 12.—Eugene E. Schmitz was released from jail Monday night after presenting bond in the sum of $150,000. His bondsmen are T. H. Williams and W. J. Dingee. The charges of extortion against him, on which he had not yet been tried, were dismissed.

SOUTHERN SHOPS SHUT DOWN.

Big Reduction in Working Forces—Retrenchment Necessary.

Atlanta, March 12.—A bulletin posted upon the main entrance doors to the Southern Railway shops in South Atlanta attracted the attention of all employees, machinists., helpers, blacksmiths, boiler makers, carpenters, painters and apprentice boys Tuesday when they knocked off for midday lunch.

The bulletin advised them that with the conclusion of the day's work the shops would shut down indefinitely; that only a number of men sufficient to meet the actual demands would be retained on the payrolls of the various departments.

To the men who have been earning the daily wage scale fixed by the road and the working men mutually, that bulletin meant that about a score of the full force in each department would be retained, while the bulk of the trained men in each line, except the carmen, would find themselves idle.

But to the employers it meant that so much of the old force as is necessary to keep in condition the rolling stock of the road would be continued on the payroll, the reduction in the force being made imperative, it is said, in order to retrench.

Not the slightest intimation had been given the men that a reduction in the force was even contemplated. The great majority of the men let out have been working at the shops for years, some of them in fact, ever since the shops were started in Atlanta.

Shops Closed at Selma.

Selma, Ala., March 12.—Seventy-five skilled workmen at the shops of the Southern railway in Selma were let out of employment Tuesday by an order received to close the shops indefinitely.

The car repairing department will be continued with a decreased force. The order was received by Master Mechanic Michael, and he notified the men that they were to quit at once. He could not offer any explanation other than that it was the policy of the company to retrench.

POSTOFFICE APPROPRIATIONS.

Side-Tracked Bill Comes Up For Further Consideration.

Washington, D. C., March 12.—After having been sidetracked for almost a week, the postoffice appropriation bill was further considered in the house of representatives Tuesday.

Mr. Small, of North Carolina, spoke in opposition to the proposition embraced in a separate bill to increase the pay to ocean steamships for carrying the mails. He declared it to be nothing more nor less than a ship subsidy.

A similar view was entertained by Mr. Finley, of South Carolina.

Mr. Finley pleaded for larger appropriations for the rural free delivery service, for the establishment of a rural parcels post, for more clerical assistance in the third-class postoffices where the salary is less than $1,600, and for greater compensation for fourth-class postmasters.

2 KILLED; 14 INJURED.

Fatal Accident Attended First Automobile Races in Egypt.

Cairo, March 12.—The khedive of Egypt, accompanied by the Duke and Duchess of Connaugh, were present at Heliopolis Tuesday at the first automobile races held in Egypt.

The contests were attended by a fatal acident.

During the second race one of the cars ran over a fallen cushion and dashed out of the course.. A policeman and two spectators were killed and fourteen persons were injured. After this accident the duke and duchess left and the races came to an end.

Mills Won't Cut Wages.

Birmingham, Ala., March 12.—Alabama Cotton Manufacturers' association, at a meeting here, has decided not to curtail the output and not to cut wages. The meeting was called to consider these two subjects, and was largely attended. President G. W. Pratt stated after the meeting that Alabama mill men consider themselves in much better condition than are the New England manufacturers.

VICTORIES OF FRENCH

Are Causing the Star of Mulai Hafid to Wane.

SO-CALLED SULTAN OF SOUTH

Considerable Dissatisfaction and Resentment Among His Followers and Two Kaids Reported To Be on Point of Deserting Him.

Paris, March 12.—Government advices received here from Morocco indicate that the star of Mulai Hafid, the so-called sultan of the south, is waning from sight.

The repeated victories of the French forces, coupled with the indifferent attitude displayed by Hafid, who left the camp at Mech-el-Chair for a period of five weeks, have created disaffection and resentment among his followers.

Two of the most powerful kaids in southern Morocco, Glaoui and Mtougi, are reported to be on the point of deserting Hafid, and are about to make terms with Abd-el-Aziz, the sultan of Redord. Shoref-el-Kitani, who has been master of the situation at Fez, is said to become dissatisfied at Hafid's failure to appear at Fez, and it is now believed that if the troops of General Bagdani, chief of the sultan's army should march on the Moorish capital they would take possession of the city in the name of Sultan Abd-el-Aziz without meeting much opposition.

OKLAHOMA REPUBLICANS.

State Convention Will Probably Send Taft Delegates to Chicago.

Oklahoma, Okla., March 12.—Fifteen hundred republicans are here to attend the state convention to name four delegates at large to Chicago. The indications are that the delegates will be instructed for Taft.

Unusual interest attaches to this convention since it is the first republican state gathering to assemble since the admission of Oklahoma as a state, and because of a three-cornered fight that is being waged. A few delegates who favor any candidate other than Taft have joined in an endeavor to prevent an instructed delegation for the secretary of war, while many who favor Taft are fighting State Chairman Hunter. Hunter is a "Rough Rider," and the leaders charge that he has exercised undue influence in the distribution of patronage and that he has done this while holding the office of clerk of the federal court, which position he now occupies. Chairman Hunter has resisted all pressure brought upon him to resign, and it is believed he will not voluntarily step down although it has developed that a large majority of the delegates are opposed to him.

There are 636 delegates to the convention and only a few of this number are represented by proxies.

Child Labor Investigation.

Montgomery, Ala., March 12—That the government is determined to get full information about child labor is further evidenced by the arrival of Walter B. Palmer, special agent of the department of labor, with a force of clerks, who will find out how many women and children are working in the cotton mills of the state; how many hours a day and how well they are paid. An exhaustive investigation is to be made.

Charges Fraud in Election.

New Orleans, La., March 12.—Charges that about 9,000 fraudulent votes were cast in the recent democratic primary for lieutenant governor were filed with the democratic state committee by J. J. Bailey, the defeated candidate for lieutenant governor. The committee will consider the charges at a meeting this day. Bailey was defeated by Paul Lambremont by a margin of less than 2,000 votes.

Library to Cost $20,000.

Montgomery, Ala., March 12.—A contract was let to the Birmingham Building company for the building of the Carnegie library at Auburn, the price to be $20,000.

LYNCHING IN MISSISSIPPI.

Four Negroes Taken From Mob Near Van Cleave, Miss.

Mobile, Ala., March 12.—Dave Poe, Tom Ranston and two Jenkins brothers, all negroes, were lynched at Van Cleave, Miss., 20 miles north of Biloxi, Miss., by a mob of thirty men at 8 o'clock Monday night.

The men were in the custody of Deputy Sheriff Evans, of Jackson county, en route to jail when the mob overtook them. A series of incendiary fires of warehouses, causing losses in charcoal, foodstuffs and other supplies, incensed the people of the vicinity.

The four negroes confessed their guilt when the mob took them from the deputy, and all four were hanged to limbs of trees by the side of the road, where their bodies were found.

The immediate cause of the lynching was the burning of the warehouse of Sam Byrd last Friday night, when the incendiarists attempted to waylay and rob Byrd, who conducts a store near Van Cleave. Among the other warehouses burned in the vicinity are those of W. H. Westfall, about one month ago, and the Dantzler Lumber company. The lynching was conducted in an orderly manner.

KILLED POLICEMAN.

Unknown White Man Used Gun on Birmingham Officers.

Birmingham, Ala., March 12.—Policeman W. A. Smith was shot and instantly killed and Policeman J. J. Byars was shot through the leg by an unknown white man near Avenue E and Fifteenth street Tuesday night.

Byars states that the man walked up to them and without warning opened fire. They did not know him, and were so taken by surprise that the man had little difficulty in escaping. Byars fired at him five times, but thinks he did not hit him.

The shooting has aroused especial indignation in view of the numerous threatening letters which have recently been received by members of the police department.

FIGHT AT NEGRO SCHOOL.

Razors, Bricks and Revolvers Were Freely Used—Several Injured.

Augusta, Ga., March 12.—At Walker Baptist Institute, a negro college, more than a dozen students and visitors were more or less injured in a free fight which followed a moving picture entertainment Tuesday.

As the audience was leaving the hall an argument arose between two negroes, and in an instant a fight was started, being made lively by razors, bricks and revolvers.

Seventy-five shots were fired, and knives were freely used. The school authorities have expelled several students, and are investigating further.

KILLED IN BELTING.

Horrible Death of Man at the Fairburn Marble Works.

Fairburn, Ga., March 12—Just about the time the shop whistles were sounding the hour of noon Tuesday, Elmer Kiser was caught upon the end of the main shaft of the Fairburn Marble company's works in the south section of the town and almost instantly killed. He was in some manner drawn into the belting and whirled round and round. His arm was torn from the socket and his neck broken. Death was almost instantaneous.

He was a grand-nephew of the late M. C. and J. F. Kiser, of Atlanta.

More Night Rider Raids.

Nashville, Tenn., March 12.—A dispatch from Trenton, Tenn., says that night riders have made a raid in Gibson county. They visited a negro tenant and fired several shots into his cabin, barely missing three sleeping children. Other negroes were visited and notes were shoved under the cabin doors warning them to leave. All of the negroes visited are reported to be good citizens.

Created Knight of St Gregory.

Chicago, March 12.—Archbishop Quigley received Tuesday night a papal decree creating Ambrose Petry of this city a knight of St. Gregory the Great. The order is one of the oldest in the Catholic church.

MORSE-CURTIS TRIAL

Joint Indictment of 29 Counts Against Former Financiers.

THEY PLEADED NOT GUILTY

Bail Was Fixed at $30,000 for Morse and $10,000 for Curtis—They Were Allowed Three Weeks in Which to Reconsider Their Plea.

New York, March 12.—Charles W. Morse, the former banker, and Alfred H. Curtis, formerly president of the National Bank of North America, pleaded not guilty in the United States circuit court Wednesday to a joint indictment of twenty-nine counts.

Eleven of the counts charged them with conspiracy, and eighteen charged them with making false entries.

Bail was fixed at $30,000 for Morse and $10,000 for Curtis.

They were paroled in custody of their counsel in order to secure bail, and were allowed three weeks to reconsider their plea.

Both Morse and Curtis gave bail. Mr. Morse at first demurred to the $30,000 he was required to furnish, and said:

"Well, I suppose I am the goat as usual."

KILLED WHOLE FAMILY.

Man Then Committed Suicide—Tragic Affair at Tenino, Wash.

Tenino, Wash., March 12.—Warren McKay, a native of Canada, killed his wife and three children at his home here Monday night, and then committed suicide.

Two men on their way to work found McKay's body, clad in his underclothing, on a trail leading to the town about a quarter of a mile from his home. The body was cold, and it is believed that he poisoned himself, as no marks of violence were visible.

The men notified the town marshal immediately, and he went to the house to notify Mrs. McKay, where he was horrified to find the mother and two of the children, a girl of seven and a boy of four years, with their throats cut, and a girl of six years with her head crushed by blows of a hammer.

McKay has resided in Tenino for ten years and has been suffering from a cancer upon his face, which has preyed upon his mind.

FIGHT MAY PROVE FATAL.

Difficulty Between Prominent Farmers Near Asheville.

Knoxville, Tenn., March 12.—A special to the Sentinel from Asheville, N. C., says Harris Sumner, of Skyland, near Asheville, is lying in Biltmore hospital with three bullets in his body and his skull badly fractured by a blow from the butt-end of a revolver.

James Brady, his alleged assailant, is in jail at Asheville charged with attempted murder.

Brady appeared at police headquarters late Tuesday night and made announcement that he had shot Sumner and was ready to give himself up.

He added: "I had a right to do what I did."

Further than this, he would say nothing. It is believed the men had a difficulty over domestic affairs.

Both are well-to-do farmers, and they have been friends.

Important Discovery.

Florence, March 12.—Fifty-six letters written by Michael Angelo to the historian and poet, Giorgio Vasari, have been found in the archives of Count Rasponi Spinelli. The existence of these letters had been unknown and the discovery is considered to be of great historical and artistic importance.

To Expel Mormon Missionaries.

Munich, March 12.—The Bavarian government has ordered the immediate expulsion of a number of American Mormon missionaries whose presence here is regarded as being dangerous to public order.

A PROMINENT MAN VISITING THE CITY

Son of Soldier and Statesman of His Time Reveals Life.

FATHER WAS A GREAT MAN

Served as Colonel of Confederate Army in Tennessee, and Was Afterwards Appointed Federal Judge Under Hayes—A Brother of A. L. Key.

It may not be generally known, but it is a fact that Gainesville has as a visitor who is spending a few weeks here, a prominent man, in the person of John S. Key, who is here with his aunt, Miss Kate Lenoir, for the benefit of his health.

Mr. Key is a native of Tennessee, a resident of Chattanooga. He has always been active in the commercial and social life of his home city, being president of a large brick manufacturing concern and one of the social favorites; but about six years ago he had the misfortune to be stricken with paralysis, since which time he has been incapacitated for business.

Mr. Key is backed by a family history which is extremely interesting. He is a son of Hon. B. M. Key, who was Colonel of the Forty-Third Tennessee Regiment, Confederate States of America, and who won many honors in battle.

Notwithstanding that Col. Key was a gallant Confederate soldier, and a man still loyal to the cause, he received appointment as Judge of the Federal Court under the administration of President Hayes, which position he held for many years. He died about eight years ago, one of the most prominent jurists and citizens in his native State of Tennessee.

Mr. Key's history is all the more interesting, since it is brought down to the present time. He is a brother of A. L. Key, former naval aide to the President, who is now engaged in giving testimony before the Senate Naval Affairs Committee in Washington, of which the papers are full.

Mr. Key has been greatly benefitted by his stay here, and is well pleased with the city and its people. He is a very modest, unassuming man, and this bit of history regarding his life was only learned through accident.

TO BE HELD FOR MURDER.

Tony Bosbey Shot Woman at Evinston, and Must Stand Consequences.

Tony Bosbey, the negro who shot Savannah Moore, a woman at Evinston, because she rebuked him for mocking her dead father, and from the effect of the wounds it is claimed the woman died, will be compelled to stand trial upon a charge of murder before Justice Smith at Micanopy today.

The story of this uncalled-for tragedy appeared in The Sun a few weeks ago. It will be remembered that Bosbey went to the woman's home, indulged in a great deal of disorder, and when he "mocked" her dead father, who was an unfortunate cripple, she reprimanded him. It is said that Bosbey thereupon shot the woman without provocation, and was afterwards arrested and placed in the Micanopy jail. The feeling ran high, as the people it is said were indignant, and Bosbey was brought to Gainesville for safe-keeping, a lynching being feared.

The woman, who was fatally injured, died Saturday, and Deputy Sheriff C. H. Crisman came to Gainesville Thursday to get his prisoner, who will have to shoulder a charge of murder instead of assault with intent to murder.

SPREAD CONSUMPTION.

Chains on Automobiles Said To Be a Menace to Health.

Chicago, March 12.—Chains on automobile wheels were Tuesday night accused of spreading consumption.

The charge was made at a meeting of the city council judiciary committee and an ordinance forbidding their use was discussed.

Dr. J. L. Pennington, who appeared before the committee, said:

"You pass a law forbidding a man to spit on the sidewalk to curb consumption, and then you let him put a chain on his automobile wheel to stir up the dust and germs on the street. As a health measure, a chain ordinance should be passed."

Members of the committee and secretary Sidney S. Gorham, of the Chicago Automobile club, will take an automobile trip to test the allegation that chains on the cars are a menace to the public health.

ANAEMIA OR POOR BLOOD

Don't Wait Too Long to Correct It, As it Often Leads to Something Worse.

Anaemia is a defective state of the blood in which there is a lack either in quantity or quality of the little red corpuscles.

It may result from any cause that serves to deplete the general system and is recognized by a pale and haggard face—colorless lips, poor circulation and short breath, and the system is at such a low ebb that more serious diseases are easily contracted.

Anaemic people should eat plenty of fruit, eggs, milk, meat, vegetables, good butter and cream and whole wheat bread, and as for a medicine nothing excels our delicious cod liver preparation, Vinol, which is made by a scientific extractive and concentrating process from fresh cods' livers, combining with peptonate-of-iron, which is a needful constituent for the blood, all the medicinal, healing, body-building elements of cod liver oil, but no oil. Vinol is not a patent medicine, you know what you are taking as all it contains is named on the label.

Any anaemic or run-down person in Gainesville who will follow the above suggestions is sure to be restored to health and strength in a short time We will return your money if Vinol fails to give satisfaction.—W. M. Johnson, Druggist, Gainesville, Fla.

W. G. Boltin, manager of the Coca-Cola Bottling Works, who recently purchased a comfortable home in North Gainesville, removed to that section with his family yesterday. Mr. Boltin, who came here but a short time ago and engaged in the bottling of America's famous beverage, realized at once that Gainesville was the best city of its size in the country, and has now demonstrated his faith by purchasing a home. It is hoped and believed that his faith in Gainesville and its future will continue to grow with the city.

IN RACE WITH DEATH.

Contractor Sought More Congenial Climate, But Lost Contest.

New York, March 12.—Lewis H. Hall, a contractor who had been dredging at Porto Cabello, Venezuela, finished a long and desperate race with death Tuesday and lost.

He had been in Venezuela for two years and about a year ago began to suffer from the climate. His condition became so alarming that on his last trip he was put on board the steamer Philadelphia at Porto Cabello. The steamer was delayed on her voyage up the coast by storms.

Mr. Hall said he wanted to reach Brooklyn, his home, and see his daughter. A wireless message brought an ambulance from the Long Island hospital. When the ship reached the foot of Montague street, Brooklyn, Tuesday noon, he was met by his daughter and hurried in the ambulance to the hospital.

One hour after reaching the hospital Mr. Hall died, the change to a colder climate having given him pneumonia.

THE POLITICAL POT.

Aspirants Do Not Seem to Stir the Broth With Great Energy.

The time is drawing nearer every day for the municipal election, but those who would aspire to political honors seem to be inactive. The pot is on, the fire has been kindled by those who are seeking the position of marshal, but beyond that the other aspirants do not seem even to have gotten their spoons out to partake of political porridge.

"Who is going to be mayor?"

That is the question which at present agitates the minds of the politicians, and fellows who sit on the benches around the court house square, and hold up the corner telephone and telegraph poles, while the gentle zephyrs whistle through their chin locks.

There seems so far no opposition to Mayor Thomas of his administration, as far as street gossip is concerned. It does look that such an honored and dignified position as mayor of as fine and progressive city as Gainesville is going begging, as nobody has announced, no name has been suggested, and the citizens are at sea. So far as can be learned, it has been impossible for even the street political gossipers and prophets to nominate a candidate, as no one has yet ventured to say who is "the best man."

While Mayor Thomas, it is understood, does not desire the nomination and will not become a candidate voluntarily, the citizens as a rule, recognizing his loyalty and efficiency in the past, desire him to enter the race to succeed himself.

No man in Gainesville, especially at this time, would be more fitted for this honored position, and it is up to some energetic citizen to exercise himself and his efforts toward his nomination.

STOP THE STRENUOUS LIFE.

Weakens the Tissues and Lessens Organic Vitality.

The stress and strain of the strenuous life in both city and country tends towards stomach troubles. Five people suffer today where one did ten years ago with sick headache, dizziness, flatulence, distress after eating, specks before the eyes, bloating, nervousness, sleeplessness and the many other symptoms of indigestion.

All who are suffering with stomach troubles, and that means at least two but of three in Gainesville and other towns, should use Mi-o-na stomach tablets. Nothing else is as safe, yet effective; nothing else can be so thoroughly relied upon to relieve all troubles from indigestion as Mi-o-na.

So reliable is Mi-o-na in its curative action that J. W. McCollum & Co., with every 50-cent box they sell, give a guarantee to refund the money unless the remedy cures.

Heavier Ammunition.

"Is this the man we are to initiate tonight?" asked the illustrious conductor.

"It is," replied the outside guard. The illustrious conductor walked around the 350 pound candidate, inspected him carefully and turned to his assistant.

"Put the goat back," he said, "and bring me a mule."—Chicago Tribune.

HON. S. B. HERMAN IS WELL AGAIN

Noted Oregon Statesman Restored to Health on Recent Eastern Trip.

Hon. Shiller B. Herman, distinguished statesman and legislator of Portland, Oregon, who was recently on an eastern trip, is among those strongly in favor of L. T. Cooper, in the discussion over Cooper and his medicines, which has raged for the past year in cities visited by the young man on his educative campaigns, as he calls them.

Cooper was explaining his new theories and medicines to Boston people during the Oregonian's visit to that city, and in a recent interview Mr. Herman said: "My trip east accomplished more for me than I ever believed possible. It has actually been the means of restoring my health. While in Boston I heard a great deal about this man Cooper and his medicines, and one morning I talked with a Boston banker who told me that he had been relieved by Cooper's medicines after ten years' chronic dyspepsia. For the past twenty years I have been a fearful sufferer with nervous dyspepsia. It has been so bad that it all but forced me to resign from the legislature.

"I was feeling wretchedly that morning, and I made up my mind to try the medicine. I had seen leading physicians without number both East and West. They had been unable to help me in the least, and I no more believed this Cooper medicine could help me than it could bring a dead man back to life. I really don't know why I bought it. It was like a drowning man clutching at a straw.

"To make a long story short, it has been astonishingly successful in my case. Today I am enjoying a sound stomach and perfect health for the first time in twenty years. I can eat heartily without the slightest inconvenience afterward. I have a fine appetite, and sleep well. I am no longer moody and depressed, and my nervousness has entirely disappeared.

"Any man who has chronic dyspepsia owes it to his family to try this medicine."

In all our experience as druggists, we have never seen anything to surpass the famous Cooper preparations. —J. W. McCollum & Co.

BURGLARS VISIT BURKHIM.

Entered Mysteriously and Left in Same Way, After Securing $5.

There is some mysterious burglars working in the city, and their mania seems to be not for "worldly goods," but for money. It's the "filthy lucre" they want, and nothing more, as has been plainly evidenced by the fact that in two instances they have entered stores, molested the money drawers, and left everything else untouched.

This is the second time they have entered stores on the public square within the past ten days. This time L. J. Burkhim was the victim, and some time during Wednesday night they entered the store, tried the safe and found that the outer door yielded easily to their efforts. They found the inside department containing the money locked, however, but in a lower drawer secured $5 which had been left there in keeping as the property of one of Mr. Burkhim's little daughters. After relieving the safe of this amount they disappeared as quietly as they had entered, making no apparent attempt to take anything in the stock, which they could have easily done.

The most mysterious part of these robberies is the fact that the burglars entered without causing any destruction, and leave the place "in good order," to use the expression. Not a break of any kind was discovered about Mr. Burkhim's store, which leads the victims and the officers to believe that in some manner duplicate keys to doors have been secured.

It will be remembered that a few nights ago some person or persons entered the store of Chitty & Co. under the same conditions, prying open the inside safe door with a hatchet. Notwithstanding that there was more than $200 in the safe, no money was secured, and it is believed that the perpetrators were frightened away before they had time to secure the booty.

The officers have no definite clue, but one stated to The Sun Thursday that two strange colored boys who have been loitering about the streets are suspected. These boys it is understood left the city later in the day, but may be in hiding, awaiting another opportunity.

A New Industry.

The Florida Chair Factory of Jacksonville, whose advertisement appears in this issue, have started a new system in their business which will be heralded with pleasure by the general public. Their new plan is to sell chairs direct from the factory at wholesale price, thus eliminating the jobber's profit, also the retail dealer's profit.

They have placed on sale 35,000 chairs which include parlor, bedroom, library and porch rockers, dining-room, office and, in fact, chairs of every description, at the wholesale price.

HIGH SCHOOL NOTES.

High School Literary Society Had Interesting Meeting Wednesday.

The High School Literary Society met Wednesday afternoon at 2:30 o'clock in the High School Auditorium and a nice program was carried out, which was both entertaining and instructive.

This society is quite young at present, nevertheless it contains the very finest material in the school. We hope that the people of this city will not think that this is compulsory. It has been formed by the young ladies and gentlemen of the school that had sufficient energy to know a good thing when they saw it.

A very fine program was rendered, which was as follows:

Quotations—Goethe.
Life of Goethe—Casper Peeler.
Piano solo—Ida McDonald.
Play, "The Train to Mauro."—
Earle Taylor .....Mr. Bright.
Sam Mixon.....Johnnie Buttermilk.
Katie White.....Mrs. Buttermilk.
Quarteete—Dallas Bowers, Chas. Simpson, Earle Kelley, Tom McBeath.
Current Events—Alexander Harper.
Piano solo—Dalton Rosborough.
High School Local News—Julia Bunch.

STREETS BEING IMPROVED.

Street Inspector Warren With His Force Trimming Shade Trees.

The various streets of the city are being improved in appearance by the trimming of the magnificent shade trees. Gainesville has always enjoyed the reputation of having the prettiest shaded streets and the most handsomest oak and other shade trees in the State, but, owing to the torn-up condition of a number of the thoroughfares on account of sewerage apd paving, an opportunity has not been afforded to get to trim them.

Street Supervisor Chas. C. Warren, with a good force of men, is now busily engaged in trimming the trees, which renders their appearance much better, and affords a better view of the streets, as the trimming affords an archway which is inspiringly attractive to not only the visitors, but our home-folks as well.

Supervisor Warren is to be congratulated upon the efficiency and thoroughness of his work, which is appreciated by the people.

Mrs. Bearden's Funeral.

The funeral of Mrs. Lucinda Bearden, who died at her home in this city on Wednesday night, was held from the residence Thursday afternoon at 3 o'clock, Rev. T. J. Nixon, pastor of the First Methodist church, officiating. The funeral was well attended by friends of deceased, who gathered to pay their last sad respects. The floral decorations were in evidence as the token of friendship and love from many.

Deceased was eighty-two years of age. She was born in Clinton, S. C., but has been in Florida many years. She has for years been a devout member of the Methodist Episcopal Church, South, during a greater part of which time she was actively engaged in church work.

Mrs. Bearden is survived by one daughter, Mrs. Mershon, of this city, and several grandchildren, to all of whom the sympathy of the community is extended.

A severe cold that may develop into pneumonia over night can be cured quickly by taking Foley's Honey and Tar. It will cure the most obstinate racking cough and strengthen your lungs. The genuine is in a yellow package. J. W. McCollum & Co.

AT THE CHAUTAUQUA.

Attractions Thursday Were Varied, and Were Exceedingly Good.

Yesterday was the beginning of the W. C. T. U. School of Methods, conducted by Miss Louise Hollister, National Organizer, from Evanston, Ill., National headquarters of the W. C. T. U. work.

Miss Hollister is a very bright, alert little woman with very pleasing manner, and filled with zeal for the work. It is a work that ought to find a response in every true woman's heart.

Miss Hollister will address the children in the Tabernacle this afternoon at 3 o'clock and will look for a goodly number of young people at that time.

The Chautauqua has been fine all the way through, and as the Rev. C. W. Sullivan remarked, is a revolving university and a great uplift to any city.

"Seeing Things" was the subject of Mr. Sullivan's lecture yesterday afternoon, and was made both entertaining and instructive with his crayon drawings and the imagery of his fertile imagination, teaching a beautiful lesson by showing how to see the beautiful, the wonderful and the good in this great world.

The Otterbein Quartette both afternoon and evening were fine, and pleased the audience wonderfully.

The lecture by Dewitt Miller was a great treat, and his fame as a lecturer is well understood.

The moving pictures pleased as they always do, and are fine.

We must not neglect to speak of the grand work Mr. and Mrs. Rucker Adams are doing. They are better this year than ever before, and too much good cannot be said of them.

ELKS MEETING TONIGHT.

District Deputy Exalted Ruler Will Pay Lodge Official Visit.

Members of Gainesville Lodge No. 990, B. P. O. E., are anticipating with a great deal of interest the official visit of District Deputy Exalted Ruler Max L. Bear of Pensacola, who writes Secretary J. M. Dell that he will be here tonight.

Mr. Bear is an enthusiastic Elk, a faithful and energetic official, and is quite popular throughout the State. Secretary Dell requests a full attendance at the meeting this evening.

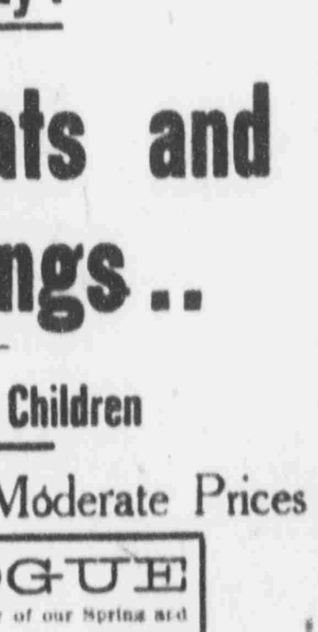
Get rid of the Lard Habit

Cottolene makes pies and pastry digestible; it makes crisp, flaky pie-crust—the kind that will melt in your mouth rather than stick in the pit of your stomach.

There is no getting away from the fact that lard is the fat of the hog. There was a time in the olden days when lard was made from a particular part of the hog, the selected part—it was called the "leaf"—that is, the peritoneum; but, with the growth of the industry, lard is now thrown on the market made from fat from all portions of the hog, and lard, today, is not as good as the lard of years ago—in fact it is even more indigestible and more unhealthy.



Cottolene is a cleanly, vegetable product made from pure, refined cotton seed oil. It makes food palatable, digestible and healthful.

Cottolene is the purest and best shortening. It is not a substitute for lard, but an improvement upon lard or any other shortening. When you accept a substitute for *Cottolene* you are not getting your money's worth. *Cottolene* is preferable in more ways than one—in purity, results and healthfulness.

THE DAILY SUN, published every morning except Monday, delivered by carrier in the city, or mailed to any part of the United States, postage free, for $5 a year; $2.50 six months; $1.25 three months; or 50 cents for five weeks—strictly in advance.

Reading notices in local column 10 cents a line for first insertion, and 5 cents for each additional insertion.

Rates for display advertising made known on application.

The Twice-a-Week Sun is an eight-page, forty-column paper, published every Monday and Thursday, and contains all the news of the week, local, State and general, and will be mailed, postage free, to any part of the United States or Canada, for $1.00 a year—in advance.

All advertising bills become due after first appearance of advertisement, unless otherwise stipulated in contract. Parties not known to us will be required to pay for advertising in advance. Address, THE DAILY SUN, GAINESVILLE, FLA.

The stores are always worth a visit—but doubly so after you have read the ads.

The candidates are "getting busy," and so are the farmers—preparing for their crops.

Bear in mind that tomorrow is the last day in which to pay your poll tax for the city election.

Finding the man for the work and the work for the man are twin-tasks of the same want ad.

The Supreme Court of Ohio has decided the conviction of the bridge trust magnates is unconstitutional.

The printers' unions are praying for a repeal of the tariff duty on white paper. Another "conspiracy" against the law of the land.

Another Republican Senator has attacked the Aldrich bill on the ground that the railroad bond feature is a step towards Government ownership of railroads.

The beautiful and majestic shade trees are admired by visitors to Gainesville above everything else; yet some of the officials would fell them to the ground.

Mr. Bryan's fear that money is being used to defeat him, shows how great minds run in the same channel, for Mr. Roosevelt, not long ago, felt the same way.

If Senator Knox and some other aspirants for the Republican nomination for President had voted as they now talk the railroad rate issue would have been settled some years ago.

The liquor men are calling consumers together in mass-meetings to "fight for cheap beer," as a news headline puts it. Give 'em the cheap beer first and the fight will come without any coaxing.

President Roosevelt and the Republican leaders in Congress are bucking each other, and there will soon be blood on the political moon, unless Congress passes the measures the President has recommended.

The Senate has appropriated $125,000 to provide a crypt in the chapel of the Naval Academy as a resting-place for the body of John Paul Jones. This is a belated recognition for one of our first fighting seamen.

The recent destruction by fire of a school house in Collingwood, Ohio, in which nearly two hundred children lost their lives, has caused the authorities throughout the country to take to providing proper means of escape in the public school buildings. Every school house should be provided with swinging doors in each room.

H. C. Peace, who was raised in the Micanopy neighborhood, but now cashier of the Suwannee River Bank at White Springs, is a candidate for the Legislature from Hamilton county. Mr. Peace's Alachua county friends will be glad to learn of his prosperity and all of them will join The Sun in wishing him success in his race for Representative.

THE PRIMARY TICKET.

The coming primary ballot will be most fearfully and wonderfully made. Nothing like it has ever been seen by a Florida voter before, and we hope its like will never be seen again. The ticket ought to be two-thirds shorter than it will be, and if by another election steps are not taken to shorten it by leaving off National, State and county committeemen we shall favor having a separate box for county officials, and let the others take their chances.—Bronson Times-Democrat.

The complaint of The Times-Democrat is well founded. Delegates to the National Convention and Presidential electors should also be omitted from the primary ballot, the same being elected by a State convention which should promulgate a platform of principles for the State Democracy. The ballot in the May primary should not be so cumbersome as heretofore, however, as the law has been amended permitting the printing of names of candidates in parallel columns, instead of on a long "string" of paper. Few country printers have been able to print the election tickets in the past, but they can be printed in any county in the State under the new law.

REPUBLICAN SCANDAL.

That it is no new thing for a Republican Congress to have a scandal on its hands, will occur to everyone. In 1902 there were charges made and evidence produced that the same Holland-Electric Boat Company that is now under charges was mixed up in dubious transactions, and those eminent Republican statesmen, Lemuel E. Quigg and Congressman Lessler, were toasted over the fires of investigation, but were whitewashed by a considerate Congress. At that time Congressman Lessler said he would not trust but one of the Republican members of the Committee on Naval Affairs, and now Congressman Lilley says he has evidence against five of them. The lobbyists appear to be getting more and more the upper hand of "Uncle Joe's boys," whether because he is getting old and less alert than formerly, or because he is now a candidate for the Republican nomination for President, perhaps the future will disclose.

Just now the stores are "calling." It's the "merging of the season." It's good-bye to the now-stocks—and good-morning to the almost-things—and the buyers "take their profits" when the Finger of Urgency is laid upon the merchant. The advertisements—spokesmen for all merchants who have any message for you, or invitation to extend to you—are filled with information, with persuasion, with friend-making facts. If you can, after reading the ads., willingly stay away from the stores these days—then you must be immune from the lure of self-interest and the beckoning smile of opportunity.

The tariff tax on boots and shoes is 25 per cent, which tax on necessities a Republican Congress refuses to abolish, although Hon. W. L. Douglas of Massachusetts, just before he was elected Governor, declared that a majority of the New England shoe manufacturers were willing to forego this protection if Congress would give them free hides. Governor Douglas is the largest manufacturer of shoes in the United States, and says the tariff is hindering the export trade of this country.

It is hardly worth wasting time in criticising the different currency bills, for Congressman Keifer, one of the old wheel horses of the Republican party, declares, "I don't think we will get anything substantial done in regard to financial relief at this session." Yet the Republican leaders boast that they "do things."

EVELYN SEEKS DIVORCE.

To Begin Suit to Annul Marriage with Harry Thaw.

New York, March 12.—Evelyn Nesbit Thaw, it is said, will institute proceedings for the annulment of her marriage to Harry K. Thaw.

The action will be based on the allegation that the defendant was insane when the union was contracted.

Thaw proposes to defend the suit. The papers in the case will be served and an early trial is expected.

In the meantime, the two, by mutual agreement, will remain apart.

Signal Disc Severed Head.

Augusta, Ga., March 12.—W. B. Bunnington, in charge of the first advertising car of Sparks' circus, was killed in the Charleston and Western Carolina railroad yard late Tuesday afternoon. Bunnington was standing on the rear steps watching the trucks of his car to see if they were running hot, and leaned too far out over the adjoining track. In passing a switch the steel signal disc on top of the switch rod struck Bunnington in the face, compeletely severing the whole right side of his head.

Turkish Officers Arrested.

Tiflis, March 12.—The report of the arrest Tuesday in the province of Yelizavetpol, which borders on the Turkish frontier, of three Turkish army officers attached to the general staff here is confirmed. Several other army officers, it is stated, also were arrested in the vicinity of the fortresses at Kars and Batum in Trans-Caucasia.

Land around Raiford sold last week as high as $140 an acre.

The Starke High School has added a normal department for the benefit of Bradford county teachers expecting to take the uniform State examination in June.

While stealing a ride on freight cars switching in the Coast Line yards in Tampa a negro boy fell under a car, which passed over his leg, crushing it so that amputation was necessary.

Marshal Hamilton was killed Saturday night by Bob Robinson in a shotgun duel at Omega. Both men were negroes, and last Saturday they had some difficulty to settle and resorted to shotguns.

Deputy Sheriff Sabate will recruit a tribe of mounted Indians for service in the Ponce de Leon Celebration at St. Augustine. Mr. C. A. Dupont will bring in another large force of mounted Indians from Hastings. The Red Men of the State will be there in force.

The St. Petersburg correspondent of The Times-Union says: "A lot of six cauliflowers, whose aggregate weight was fifty-three pounds, caused the admiration of all who saw them this week—the product of one of our truck farmers. In the bunch was one that weighed twelve pounds. One of the large hotels at Pass-a-Grille purchased the entire lot."

Mr. G. S. Hardee, owner of Pioneer Grove, Rockledge, recently shipped a box containing one-half oranges and one-half grapefruit to M. Rene de Boulogne, Paris, France. The shipment left via Southern Express Co., on January 16th, and arrived in Paris on February 11th in perfect condition and the recipients state it was the finest ever seen there. Express charges from Cocoa to Paris were $6.90.

Thursday morning about 10 o'clock as H. H. Thorp was turning his automobile on the South Bridge the machine backed through the railing and turned bottom side up in the river, with Mr. Thorp under it. Bystanders took him from the water as soon as possible. At this time it is impossible to determine his injuries, but it is said that he sustained severe internal injuries and a broken arm.—Daytona Journal.

Messrs. James W. Perkins and Zack T. Bielby are two orange growers of this section who made a nice sum from the crop just disposed of, the former cleaning up $8,500 and the latter $6,500. Their groves are out north of town about five miles, and are kept in the best of condition. They will have a large crop another season, as these groves, like all others, are showing signs of heavy bloom.—DeLand Record.

The orange, lime, grapefruit, lemon, peach and other trees are blossoming out in great profusion, and the fragrance of the perfume heavily scents the air around Titusville. Spring is fast approaching and the tourists are enjoying perfect weather. The town is filled with winter cottagers, invalids and pleasure-seekers from all parts of the world. Many of the hotels have had to assign late comers to the surrounding cottages.—Titusville Advocate.

The Pensacola correspondent of The Times-Union says: "An immense warsaw fish was brought here Friday by the fishing schooner Carrie B. Wefles, and has been placed in ice to be shipped out at an early date to Cincinnati. The fish tipped the scales at 320 pounds and it was the largest by over 100 pounds of any ever taken in the Gulf. The fish are easily taken, after the first struggle, and was caught with a hook and line used for snapper fishing. As soon as the first struggle is over the warsaw rises rapidly to the surface and in so doing fills itself and upon reaching the surface floats and is unable to sink. Therefore the fishermen experience but little trouble in catching them."

Novel Tribute to Tolstoi.

London, March 12.—Laurence Irving, the actor, has written a letter to the London papers, in which he suggests a novel tribute to Count Leo Tolstoi, in the shape of a pilgrimage of Eglishmen of high standing, if possible, but traveling third-class or partly afoot. Mr. Irving further suggests that sumptuous hotels should be avoided by the pilgrims, who should live plainly and mix with the people. The pilgrimage should be arranged, he adds, so as to reach Tolstoi's home in time to present to him a birthday greeting, Aug. 28

American Securities Solid.

New York, March 12.—Sir William C. Van Horne, chairman of the Canadian Pacific railways' board of directors, who arrived from Europe Tuesday, said that American securities were no longer looked upon with suspicion in Europe. Investors on the other side, he said, believe now that American securities are at bed-rock, and that it is good to buy now while the financial haze in America is clearing up.

THE PERFECT WAY

Scores of Florida Citizens Have Learned It.

If you suffer from backache, there is only one way to cure it.

The perfect way is to cure the kidneys.

A bad back means sick kidneys.

Neglect it, urinary troubles follow.

Doan's Kidney Pills are made for kidneys only.

S. B. Lemons, cigar maker, living at 1311 Ashlet street, Tampa, Fla., says: "I used Doan's Kidney Pills and they cured me of backache and disorder of the kidneys. Two or three times on account of the pain in my back I was unable to work for several days. The secretions of the kidneys were in a very bad condition, dark in color, and if allowed to stand would become of the consistency of jelly. I tried various remedies, taking what seemed like gallons of medicine and I also put on plasters, but nothing helped me at all until I got Doan's Kidney Pills upon the advice of a friend of mine, and using them according to directions they cured me in a very short time."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

FIFTEEN YEARS OF KEEN SUFFERING

Rheumatism Developed Burning, Painful Sores on Legs—Tortured Day and Night—Tried All Kinds of Remedies to No Avail—Wife Had Debility and Pains in Back.

BOTH USED CUTICURA AND ARE WELL AGAIN

"My husband had been a great sufferer with rheumatism for nearly fifteen years. At first it was in his bones, but after a while it was in the flesh and finally running sores broke out on his legs, from below the knees to the ankles. There are no words to tell all the discomfort and great suffering he had to endure night and day. He used every kind of remedy and three physicians treated him, one after the other, without any good results whatever. So one day I happened to read about Cuticura Remedies. I asked him if he would not try them. 'No,' said he, 'it's no use, I've spent enough money now.' The next day I ordered five dollars' worth of Cuticura Soap, Cuticura Ointment, and Cuticura Resolvent. He began to use them without confidence but after three weeks all the sores were dried up. The burning fire stopped, and the pains became bearable. After three months he was quite well. Two years later the pains and sores came back after he had been working hard and had taken cold. But as soon as he used Cuticura again it cured him. Two years ago I used Cuticura Pills for general debility. They did me a great deal of good and made me well. Three months since I had pains in my back and Cuticura took them away, too. I can prove this testimonial at any time. Mrs. V. V. Albert, Upper Frenchville, Me., July 21, 1907."

A Single Treatment

Consisting of a warm bath with Cuticura Soap, a gentle application of Cuticura Ointment, and a mild dose of Cuticura Resolvent or Pills, is often sufficient to afford instant relief, permit rest and sleep, and point to a speedy cure of torturing, disfiguring eczemas, rashes, itchings, irritations, and inflammations of the skin and scalp, from infancy to age, when all else fails.

Cuticura Soap (25c.), Ointment (50c.), Resolvent (50c.), and Pills (25c. per vial of 60), are sold throughout the world. Potter Drug & Chem. Corp., Sole Props., 137 Columbus Ave., Boston.

THE NEWS FROM WANNEE.

Wannee, March 12.—The Suwannee school closed last Friday, after a successful term of two months under the efficient management of Miss Lois Mikell. The Literary Society suspended until school opens again.

H. B. Brooker, S. T. Roberts and R. S. Walker made a business trip to Gainesville Monday.

Mr. and Mrs. Tom Gay entertained a party of friends at their home near Wannee Friday night.

The closing exercises of the Roadfield school will be held Thursday afternoon, March 19th.

Messrs. Northrop and Berton have opened up their new store.

The mill recently erected by Bryceson & Folks will soon be in running order.

Dr. J. L. Kelley paid Roadfield school a very pleasant visit Thursday afternoon. He complimented Miss Reinoehl and pupils on the excellent work that has been done during the term.

Mr. Bryceson and family have moved to Wannee, and are occupying the cottage recently vacated by L. Smith. Mr. Northrop has also moved his family to Wannee.

Miss Bonnie Mikell has returned to her home near Lakeland, after a very pleasant stay with relatives and friends.

The old Suwannee river will soon be right for fishing again. The finny tribe may lookout.

D. R. Cummings, agent for the S. A. L. at Wannee, has erected a nice launch on the old Suwannee.

School closes Friday, March 20th, with a picnic at Log Landing, on the Suwannee river. Everybody invited. Come with well-filled baskets.

Geo. W. Roberts will have a launch running on the Suwannee within the next few weeks.

Given Up to Die.

B. Spiegel, 1204 N. Virginia St., Evansville, Ind., writes: "For over five years I was troubled with kidney and bladder affections which caused me much pain and worry. I lost flesh and was all run down, and a year ago had to abandon work entirely. I had three of the best physicians who did me no good and I was practically given up to die. Foley's Kidney Cure was recommended and the first bottle gave me great relief, and after taking the second bottle I was entirely cured." Why not let it help you? J. W. McCollum & Co.

Target Practice By Yorktown.

San Francisco, March 12—The gunboat Yorktown has arrived here from La Union, Salvador, putting in at Magdalena bay for target practice on her way up. In the matter of scoring the Yorktown, it is said, was next to the Albany, which outclassed all the other ships of Admiral Swinburn's squadron. The Yorktown will stay here several weeks.

My Wife's Long Suffering with Neuralgia Cured By Minard's Liniment

I am pleased to say that Minard's Liniment is a great relief for neuralgia. My wife has suffered a long time with neuralgia, and I have tried everything I knew or heard about, and could not get anything that would cure her, and the doctors had given her up; they could not do any more for her. About three weeks she had not been able to do her own work and had to have her head tied up, and her neck was so bad that she could not turn her head without turning her whole body. When your agent came along I got three sample bottles of Minard's Liniment. She used one, and in twenty-five minutes she was able to go all around the house without her head being bandaged, and could do her own work and has ever since. Therefore I can truly say that Minard's Liniment is a sure cure for neuralgia, and that it will do just as it is recommended to do, and as long as God spares me, I shall never be without it. Yours respectfully,

TRIAL OF ALIA.

Case of Father Heinrich's Slayer May Be Concluded This Week.

Denver, Colo., March 12.—When the trial of Guiseppe Alia, charged with the murder of Father Leo Heinrichs, was resumed Tuesday before Judge Whitford in the criminal division of the district court, the indications were that the state would be able to present his entire case, including the testimony of its sanity experts, before the close of the day, and that the prisoner's defense would be heard on Wednesday.

The jury is composed of plain business men, all non-Catholic, who have declared under examination that they are not opposed to hanging and would not be influenced by certain facts.

Was Fined $150.

New York, March 12.—Charles J. Vanni, an importer of foreign newspapers, was fined $150 in special sessions Tuesday for violating the penal code in selling blasphemous literature. Vanni was arrested by Antony Comstock for offering for sale French and Italian anti-clerical publications in which were alleged blasphemous cartoons.

A FACT PROVEN.

Should Convince Even the Most Skeptical of Its Truth.

If there is the slightest doubt in the minds of any that Dandruff germs do not exist, their belief is compelled by the fact that a rabbit innoculated with the germs became bald in six weeks' time.

It must be apparent to any person therefore that the only prevention of baldness is the destruction of the germ—which act is successfully accomplished in one hundred per cent. of cases by the application of Newbro's Herpicide.

Dandruff is caused by the same germ which causes baldness and can be prevented with the same remedy—Newbro's Herpicide.

MUNICIPAL POLITICAL ANNOUNCEMENTS

FOR MARSHAL.

I take this method of announcing my candidacy for re-election as City Marshal at the election April 14th, 1908. I have endeavored to perform my duty without fear or favor, and would appreciate the support of my fellow-citizens, promising the same attention to the duties of the office in the future as in the past. Thanking you for past support, and soliciting your votes at the coming election, I am, Very truly,

BEN T. ARNOW.

I hereby announce myself a candidate for City Marshal in the election to be held on the 14th day of April, 1908. I promise if elected to endeavor to do the duties required by the ordinances as near as I possibly can, and I solicit the votes of all law-abiding citizens. Respectfully,

CHAS. PINKOSON.

To the Voters of Gainesville—I take this method of announcing my candidacy for Marshal of the City of Gainesville. I have been on night work as an officer, protecting you and your interests while you were asleep, for about three years, and leave it to you as to whether I have performed my duty well, and with impartiality. I think I have been long enough at night work to be entitled to a day job, and if elected I promise you a faithful, impartial and efficient service. Yours for order, C. L. KITE.

Citrus Bloom Dropping

By P. H. Rolfs, Florida Agricultural Experiment Station.

An early spring drought following a moist winter frequently causes a wide-spread and general dropping of bloom. The only way to prevent such dropping of bloom is to be equipped with an irrigating plant.

In some cases, a late freeze, and even chills during the blooming period, may cause a very considerable shedding of the bloom. When this occurs as a result of too low temperature we can do nothing to prevent it.

Another cause of the shedding of bloom is the occurrence during the blooming period of heavy rain-storms and winds. These, however, are not as serious as either cold or drought, since the rains and winds that cause shedding of bloom are usually confined to limited areas.

DROPPING DUE TO WITHERTIP.

The most serious shedding of bloom occurs as the result of an attack of a parasitic fungus, *Colletotrichum gloeosporioides*. This is a serious trouble, for only too frequently its cause is not recognized, the shedding of the bloom being ascribed to one of the before-mentioned causes, or to the presence of thrips or other insects.

The first sign that we notice in connection with the withertip dropping of bloom is that a great number of unopened flower-buds have fallen from the tree. As this same effect may be the result of other causes, the mere fact that we find unopened flower-buds on the ground should not be considered as proving that we have a case of withertip bloom dropping. Upon closer examination, however, we find that where the bloom has dropped on account of being affected with the withertip fungus, there are little red markings upon it; and the buds or blossoms may be partially, or even entirely, covered by these red patches. By examining such flower-buds or petals in the laboratory it can be easily demonstrated that they are affected by the withertip fungus. By using a strong hand lens one is able to see the minute pustules in which the spores are produced. Such diseased flower-buds and petals, however, differ so strikingly from those that have fallen naturally, that almost every one whose attention has been called to the point is able to distinguish between them, without the aid of a lens. When much bloom has dropped as a result of being affected with the withertip fungus, one almost invariably finds the typical signs of withertip on the tree. The most prominent of these are the dying back of small sprigs, and the very characteristic want of leaves on the inside of the tree. Whenever one sees a tree in the orchard that has no interior foliage, it should be noted as a suspicious specimen.

The withertip fungus which causes the dropping of the flower-buds lives over the winter in the leaves, or in the twigs of the tree, or on fallen fruit. From these sources some of the spores find their way to an open bud, where the fungus grows very rapidly and produces myriads of spores. Bees, flies and other honey-loving insects, visit the affected blossoms, and coming into contact with the fresh spores, not only carry them on their bodies to almost every open blossom on the tree, but in crawling over the unopened buds they convey the spores to these as well. But worse still, the insects which have visited an infected tree carry the spores to other trees in the grove, and from these secondary infections numerous other infections occur in time; so that hundreds of trees that were free from the withertip fungus may become infected from one single tree with diseased blossoms.

REMEDY.

The remedy here suggested has been tried and found sufficient and practical. It is recommended only for cases where one is obliged to use it in order to get a good setting of fruit. The use of this fungicide kills off so many of our friendly fungi that a severe attack of scale insects is very likely to follow.

Spray with Bordeaux mixture (for complete directions for making Bordeaux mixture see Bulletin 76 of the Florida Experiment Station), directing the spray against the open bloom, avoiding as far as possible the spraying of the foliage, and also avoiding an over-dose. If so much Bordeaux mixture is used that it runs down the limbs, it will kill a great many of our fungus friends that are there preying on scale insects. Under ordinary circumstances, no one would recommend that Bordeaux mixture should be sprayed directly into the bloom. In doing this we know that a certain quantity of the bloom will be killed by the fungicide, but so much is saved from the ravages of the withertip fungus that there need be no hesitation when one has to apply it.

DROPPING OF NEWLY-SET FRUIT.

Sometimes this fungus does not attack the blooms but attacks the newly-set fruit after the blooming period is over. Not unfrequently one may see the ground under a citrus tree strewn with thousands of small fruits, every one attacked by withertip fungus. In this case the same remedy used for the shedding of bloom will be found useful.

CHILDREN CAUGHT IN TRAP.

Coroner Declares Holocaust at Cleveland Was Inexcusable.

Cleveland, O., March 12.—The loss of the lives of the children in the Collingwood school here was absolutely inexcusable, Coroner Burke declared on Tuesday, after making a thorough investigation into the causes of the fire and the reasons why the children were caught in the hallway and burned without being able to escape.

"The poor children were caught in a veritable trap, and held and crushed until burned to death," he said. "Some one is responsible for this, and should be held. I am not prepared to say upon whom the blame should be placed. It is a matter so serious that I must take full time to consider. Before I can charge any one with this horrible result, I must view the evidence carefully and deliberately."

Tribesmen Were Routed.

Paris, March 12.—In the last fight in Morocco between French forces under General D'Amade and the Madrakasa and Mauk tribesmen, reported by the French commander, the French losses were one man killed and seven wounded. The enemy was routed and abandoned everything in their flight. The tribesmen continue to gather in large number on the Algerian frontier.

TATSU MARU INCIDENT.

Canton Mass Meeting to Protest Against Release of Vessel.

Hong Kong, March 12.—In an interview the Japanese consul laughed at the naval activity in connection with the seizure of the Japanese steamer Tatsu Maru. He believes that the Tatsu will be released in a day or two.

A mass meeting has been called at Canton to protest against the release of the vessel.

The viceroy of Canton shares in the general indignation. The witnesses of the seizure of the Tatsu have been sent to Pekin. The Tatsu is still at Whampoa.

The Japanese cruiser Idzumir arrived Wednesday.

CROWD CHEERED VERDICT.

Boy Who Defended Mother Acquitted of Killing His Father.

New York, March 12.—Constantine Peligrino, seventeen years old, who shot and instantly killed his father, Anselmo Peligrino, at their home in Brooklyn, on March 1, while defending his mother from his drunken fury, was discharged Tuesday by Magistrate Geismar in the Fifth avenue court.

This action was taken on the recommendation of Assistant District Attorney Carrao, who said that the exoneration of the boy by the coroner's jury was entirely justified.

The crowd in the court room cheered the boy as he left with his mother.

Former Oil Refiner Dies.

Cleveland, O., March 12.—John Teagle, formerly one of the best known independent oil refiners in the country, died at his home here Tuesday night, aged sixty years. About 1875 Mr. Teagle went into the oil refining business with S. D. Squire, and later the firm was changed to Scofield, Shurmer & Teagle. In 1901 the firm sold their business to the Standard Oil company, which it had fought for several years.

THE MAXIM GUN.

Curious Origin of This Terrible Engine of Destruction.

The origin of the Maxim gun was somewhat curious. Mr. Maxim (Sir Hiram) after the close of the great civil war in America was visiting one of the southern battlefields. He picked up a Springfield rifle and began firing at a target. He soon discovered, to his amazement, that his shoulder was all black and blue with the recoil. This set him thinking, and he soon conceived the idea of utilizing this force as a gun which would fire automatically.

He went to London full of his idea, but no one would listen to him. In Birmingham the chief man in a factory refused to make a bolt gun.

In despair Mr. Maxim packed up his trunks and went to Paris. In two weeks the work was done. This gun Mr. Maxim exhibited in London in 1883. He spoke of it then as the gun of the future. It is now the gun of the present. It is a wonderful gun and a deadly one. By adjusting the indicator it will fire bullets at any rate from one per minute to 600.

This terrible weapon is started by the firing of the first shot. After that it works itself and will keep going as long as cartridges can be fed into the machine. When one belt of 333 is exhausted, all that is necessary is to hook on another.

When the British government gave an order for the gun they stipulated that it should not weigh more than a hundred pounds and should be capable of firing a thousand rounds in four minutes. Mr. Maxim produced a gun which weighed thirty-five pounds and fired 2,000 rounds in three minutes.—St. Louis Post-Dispatch.

AN IRREGULAR VERB.

One That Made a Frenchman Despair of Learning English.

"What does 'Beat it!' mean?" asked the man of an inquiring frame of mind of his well informed friend.

"Why," was the reply, "that means to go, depart, be off, take your leave, and don't be slow about it. I don't know what it came from unless it is a bit of policeman's slang for 'Get off my beat!' or 'Clear out unless you want me to beat you!'"

"I am reminded of a line in one of Dr. Oliver Wendell Holmes' amusing poems, scattered through the pages of his delightful 'Autocrat of the Breakfast Table.' It runs:

"Depart! Be off! Exceed!
Evade! Evampse!

"But it takes a Latin scholar to discover the derivations of all his verbs of motion.

"There is a story of a Frenchman who on his way to England was made the victim of a practical joke in regard to the verb 'go,' whose 'went,' 'going,' 'gone,' are irregular enough. Goodness knows. He was found to be struggling with this variation: 'I go; you departest; he clears out; we cut stick; you make tracks; they absquatulate.' and as he read it he exclaimed: 'Mercy! What irregular verbs you have in your English language!'"—New York Tribune.

Getting His Own Back.

An ironworker, having had the worst of an argument with a friend, decided to get even with him.

Waiting, therefore, until his enemy had retired to rest one night, he approached his street door and knocked loudly in order to wake him.

Opening the bedroom window, the other hurriedly inquired what the noise was all about.

"Why," replied the outside one, "one of your windows is wide open."

"Which one?"

"Why, the one you have your head through," chuckled the other as he walked away satisfied with the success of his plot.—Illustrated Bits.

Must Charge to Get Crowd.

The ladies' guild of an uptown church planned an evening entertainment with reception and asked the rector to make announcement of it on the Sunday preceding.

"It is all right," he said, "but you must charge admission."

"Why, this is just a social evening," protested. "We are inviting people."

"They won't come," said the rector, "for they will think it is not worth paying. But charge a small admission and you will have a good crowd." So the women gave in, and subsequent events proved the rector was right.—New York Press.

Well Tested.

"It seems to me that I have heard some of the ideas advanced in your speech before."

"Sir," said Senator Sorghum, "mine is a speech to show that they are good ideas, which will stand wear and tear." Washington Star.

A Reversal.
